

Monday, October 10

9:00-9:30 : ISSI arrival and setup

9:30-11:00: Outline and writing of EOS article on SSW impacts

11:00-11:15: Break

11:15-12:30: Fede - Discussion of lunar tide observations

12:30-13:30: Lunch

13:30-15:00: Tarique - Discussion of geomagnetic observations

15:00-15:15: Break

15:15-17:00: Discussions related to EOS article

Tuesday, October 11**SSW Related Variability**

9:00-9:30: Nick - SSW Influence on Geomagnetic Activity

9:30-10:30: Hauke -

10:30-11:00: Break

11:00-12:00: Fede -

12:00-13:00: Lunch

13:00-14:00: Tarique -

14:00-15:00: Larisa - Variability in Thermosphere Temperature

2009 SSW

15:00-15:30: Break

15:30-16:30: Maya - Tidal Variability during 2009 SSW

16:30-17:30: Lynn - Polar Vortex Dynamics during 2009 SSW

Wednesday, October 12**2016 SSW**

9:00-10:00: Nick - Overview of 2016 SSW

10:00-11:00: Klemens (and/or students?) - Ground based observations during 2016 winter

11:00-11:30: Break

11:30-12:30: Koki - Radar observations

12:30-13:30: Lunch

13:30-14:30: Nick - WACCMX Simulations for Dec. 2015

14:30-15:30: Larisa - Ionosphere Observations during 2016 SSW

15:30-16:00: Break

16:00-17:30: Other data for 2016 SSW (?) Discussion of 2016 winter

Thursday, October 13

2016 SSW

9:00-10:30: Discussion of future plans for 2016 winter (model-data comparisons, is another model-model intercomparison beneficial?, other topics?)

10:30-11:00: Break

11:00-12:30: Future Plans for ISSI Team

12:30-13:30: Lunch

13:30-15:00: Discussion and writing of EOS Article

15:00-?: Group hike up Gurten(?)

Friday, October 14

9:00-12:00: Discussion and writing of EOS Article

12:00-13:00: Lunch

13:00-14:30: Finalize discussions and future plans

14:30: Adjourn
