

Agenda
First meeting of the ISSI International Team on 'Tails and ACRs'
 31 August-4 September 2009
International Space Science Institute, Bern Switzerland

	Monday	Tuesday	Wednesday	Thursday		Friday
9:00-10:30	<u>Gloeckler/Fisk</u> : Opening remarks. Introduction to observations session <u>Mason</u> : ACE/Wind/STEREO observations of tails at 1 AU	<u>Fisk</u> : Introduction to theory session <u>Fisk</u> : F/G theory for -5 spectra	<u>Stone</u> : Voyager observation of tails and ACRs in the heliosheath	Observations splinter group discussions	Theory/models splinter group discussions	Report of Observations Splinter Group
Coffee Break	10:30-11:00	10:30-11:00	10:00-10:30	10:30-11:00		10:30-11:00
11-12:00	<u>Popecki</u> : STEREO observations of tails at 1 AU with PLASTIC	<u>Jokipii</u> :	<u>Krimigis</u> : Voyager observation of tails (> ~10 AU and in the heliosheath) Discussion	Observations splinter group discussions	Theory/models splinter group discussions	Report of Theory/Models Splinter Group
Lunch	12:00-1:30	12:00-1:30	12:00-1:30	12:00-1:30		12:00-1:30
1:30-2:30	<u>Desai</u> : Observations of tails at 1 AU with Wind-STEP_	<u>Lee</u> :	<u>leRoux</u> :	Observations splinter group discussions	Theory/models splinter group discussions	Discussion of work and planning for the 2 nd meeting
Coffee Break	2:30-3:00	2:30-3:00	2:30-3:00	2:30-3:00		2:30-3:00
3:00-5:00	<u>Gloeckler</u> : Observations of tails (1 to 5 AU and high latitudes) <u>Hill</u> : Cassini observations of tails in the heliosphere (2 to 10 AU)	<u>Fahr</u> : <u>Ismodenov</u> :	<u>Schwadron</u> : Rebuttals and Discussion	Observations splinter group discussions	Theory/models splinter group discussions	<u>Fisk/Gloeckler</u> : Closing Remarks
