

ISSI Workshop on Origin and Early Evolution of Comet Nuclei

(17.-20. October, 2006, ISSI, Hallerstr. 6, 3012 Bern)

Tuesday- Thursday	at ISSI
Friday	at Exakte Wissenschaften, B 5
Colloquium	at Exakte Wissenschaften, Grosser Hörsaal

Tuesday, 17. October, 2006

Afternoon

Chair: U. Keller

1400 h	Welcome, logistics	H. Balsiger
--------	--------------------	-------------

Introductory talks

1430 h	Origin of cometary material	W. Huebner
--------	-----------------------------	------------

1515 h	Coffee	
--------	--------	--

1615 h	Origin of comet nuclei and dynamics	J. Fernandez
--------	-------------------------------------	--------------

1700 h	<i>Discussion</i>	
--------	-------------------	--

Wednesday, 18. October, 2006

Morning

Chair: D. Bockelée- Morvan

Reservoirs for material:

0900 h	Circumstellar grains	P. Hoppe
0945 h	Clouds	S. Charnley
1030	Coffee	
1100 h	Solar nebula /Protoplanetary disk	D. Wooden
1145 h	<i>Discussion</i>	
1215 h	<i>Lunch</i>	

Afternoon

Chair: C. Alexander

Reservoirs for comets

1400 h	Dynamics	M. Duncan
1445 h	Compositional differences	M.A.. DiSanti
1530 h	<i>Discussion</i>	
1600 h	Coffee	

Evolution of nuclei

1630 h	Thermal and chemical evolution	D. Prialnik
--------	--------------------------------	-------------

Thursday, 19. October, 2006

Morning

Chair: H. Rickman

Evolution of nuclei (cont.)

0900 h	Surface	N. Thomas
--------	---------	-----------

0945 h	<i>Discussion</i>	
--------	-------------------	--

New results from laboratory measurements and modeling

1015 h	Extended sources	H. Cottin
--------	------------------	-----------

1100 h	Coffee	
--------	--------	--

1130 h	Amorphous Ices: Comparison between lab measurements and Deep Impact results	A. BarNun
--------	---	-----------

1215 h	<i>Lunch</i>	
--------	--------------	--

Afternoon

Chair: J. Kissel

1400 h	Modeling the comet nucleus/coma boundary region	B. Davidsson
--------	---	--------------

1445 h	<i>Discussion</i>	
--------	-------------------	--

New results from observations

1515 h	Remote sensing	R. Schulz
--------	----------------	-----------

1600 h	Coffee	
--------	--------	--

1630 h	Deep Impact	M. A'Hearn
--------	-------------	------------

Friday, 20. October, 2006 (at Exakte Wissenschaften, Sidlerstr. 5, B 5)

Morning

Chair: E. Jessberger

New results from observations (cont.)

0900 h	Stardust: Elemental and mineralogical composition	T. Stephan
0945 h	Stardust: Organics and isotopic composition	F. Robert
1005 h	Discussion: Stardust vs. Deep Impact	Stephan, Robert, A'Hearn
1030 h	Coffee	

Future: The Rosetta Mission

1100 h	Capabilities of Rosetta orbiter	S. Gulkis
1125 h	Capabilities of Rosetta lander	J. Biele
1150	<i>Discussion</i>	
1215 h	<i>Lunch</i>	

Afternoon

Chair: H. Balsiger

Closure

1400 h	Rapporteur /Composition	K. Altwegg
1445 h	Rapporteur /Evolution and Dynamics	M. Duncan
1530 h	<i>Discussion</i>	
	<i>ISSI Publication</i>	H. Balsiger
1600 h	Coffee	
1630 h*	Colloquium (at Gr. Hörsaal 099): " THE ORIGINS OF ATMOSPHERES AND LIFE: CONTRIBUTIONS FROM COMETS "	T. Owen
1930 h	Dinner in honor of Prof. Johannes Geiss
